

Services:

The LEICHT team was asked to design the canopy of the Coca-Cola Store's Rooftop Beverage Bar. In the land of hurricanes, this challenge couldn't be taken lightly... The purpose of this light structure is to protect the rooftop terrace with a 400 m² transparent canopy, consisting of 6 square-shaped umbrellas made up of ETFE cushions which are supported by a steel structure.

Completion:

2016

Building owner:

Coca Cola

Client:

Birdair Inc. (USA)

Architect:

Baker Barrios Architects,
Tampa, FL,
USA: Mike Houseman

Area:

400 m²
